DURLON™
SEALING SOLUTIONS

Triangle Fluid Controls is a market-driven and technology-based company serving customers throughout the world with innovative fluid sealing products and services. Durlon® sealing products provide reliability, cost savings and process safety improvements in a wide range of demanding applications.

Due to steady growth and expansion at our Belleville plant, we are currently seeking a **Materials Testing Technician**. In this newly created role, the incumbent will primarily focus on laboratory testing of products and active participation in both existing and new Research & Development projects.

Key functions of the position include but are not limited to:

- Receiving and logging of samples
- Calibration of and maintenance of testing equipment
- Understanding of test method procedures and establishing new test methods as required
- Perform testing in accordance with ASTM & ISO Quality Control System procedures
- Analysis of test data and corrective actions to prevent non-conforming product
- Documentation and data control
- Actively participate and support for R&D projects
- Conduct research related to new and existing R&D projects as required

The ideal candidate will possess:

- Engineering Technician/Technologist diploma, or similar
- 1 to 3 years of experience in lab setting (Preferred)
- Ability to communicate effectively both orally and in writing.
- Proficiency in MS Office (Word, Excel, PowerPoint & Visio)
- Good time management
- Strong trouble shooting, analytical and mechanical skills are an asset

Please submit resume to: chett@trianglefluid.com
