

**FOR IMMEDIATE RELEASE**

**Board of Directors Appoint Mike Boyd, Vice President & General Manager**

*Belleville, ON, Canada - June 9, 2020*

Triangle Fluid Controls' (TFC) Board of Directors is pleased to announce the appointment of Mike Boyd as Vice President & General Manager of the company. Mike started with TFC as an Operations Manager in January 2009 for the PTFE gasket manufacturing operations and was promoted to General Manager in October 2016 for the entire company. Under Mike's leadership and guidance, TFC has continued a prosperous track of top-line and bottom-line growth with improvements in efficiencies, cost control, market expansion and diversity, sales depth, supplier strength, marketing penetration, employee development, and community engagement.

Triangle Fluid Controls is the global manufacturing center of the Durlon® brand of fluid sealing products recognized around the world to solve tough fugitive emissions sealing applications. "Under Mike's keen eye for operational efficiency improvements and his continuous improvement approach to the business and his professional skills, TFC and Durlon® will continue to be global market contenders for many years to come." *Mike Shorts, President, Triangle Fluid Controls Ltd.*

Congratulations Mike on your achievement, your leadership strength, and your dedication to making us a better company!
