

**Triangle Fluid Controls Ltd.®**

SERVICE | QUALITY | PERFORMANCE

Triangle Fluid Controls is a market-driven and technology-based company serving customers throughout the world with innovative fluid sealing products and services. Durlon® sealing products provide reliability, cost savings and process safety improvements in a wide range of demanding applications.

Due to steady growth and expansion at our Belleville plant, we are currently seeking a **Lab Technician**. In this role, the incumbent will primarily focus on laboratory testing of products and active participation in both existing and new Research & Development projects.

Key functions of the position include but are not limited to:

- Perform Testing in accordance with ISO Quality Control System
- Perform Incoming Inspection and testing
- Perform Work in Process testing and verification
- Understand and assist in Management of the ISO program
- Understanding of test methods and procedures
- Analysis of test data and corrective action to prevent non-conforming product
- Establish new test methods as required
- Documentation and Data Control in accordance with the ISO quality system
- Purchasing of testing equipment
- Calibration of testing and manufacturing equipment
- Provide support for and participate in R&D Projects
- Conduct research related to new and existing R&D Projects as required
- Other duties as assigned

This position offers the opportunity to grow with our company. The ideal candidate will have 2+ years experience and possess an Engineering Technician/Technologist diploma and be able to communicate in English effectively both orally and in writing (French would be an asset). Proficiency in MS Office is required as well as good math, troubleshooting skills and mechanical aptitude.

Please submit resume to: [mikeb@trianglefluid.com](mailto:mikeb@trianglefluid.com)

When applying for this position please advise us if you require accommodation or assistance during the application or interview process.
